UI/UX with experience designing aesthetically pleasing products focused on an efficient interaction with final customers. Additionally, strong detail-oriented and leadership skills to improve management processes.

UI/UX DESIGNER

UNIMINUTO

Technology in Graphic Communication
Bogotá, CO
2010 - 2014

Design and Animation

Development and Frameworks

EXPERIENCE

SPROUTLOUD

01/2019

UI-UX Designer

Present

I design user flows and visual styles for new features using data as a foundation. Additionally, I have precise communication with stakeholders to conduct need-finding, creating an interface schema and content strategy. I use and support visual systems by adding new front-end components, keeping consistency through the application ecosystem.

CG

12/2014

Web Developer

09/2018

I designed branding, user experience, and visual designs for multiple local companies. I collaborated with engineers to code the front-end. I also conducted market research and user feedback session.
